The Faraway Horses

*The Adventures and Wisdom of One
of America's Most Renowned Horsemen*

by **Buck Brannaman**

Whether you're new to Wild Hearts or have participated in our programming in the past, we hope you'll join us for a fun, informative discussion of one of our favorite books; "The Faraway Horses" by Buck Brannaman.

The Faraway Horses is Buck Brannaman's richly textured and stunning account of his life from an abusive childhood to his phenomenally successful approach to horses. A real-life "horse-whisperer," Buck possesses near magical abilities as he dramatically transforms horses—and people—with his understanding, compassion, and respect. A truly American story about a cowboy and sage, The Faraway Horses tells the tale of the extraordinary life of an extraordinary man. At heart, this rich and rewarding memoir is a roadmap for living a harmonious and honorable existence among horses and humans.
